## METHOD OF PREPARING PHOTOPOLYMER WITH ENHANCED OPTICAL QUALITY USING NANOPOROUS MEMBRANE AND PHOTOPOLYMER PREPARED BY THE SAME

## ABSTRACT OF THE DISCLOSURE

The present invention relates to a method of preparing photopolymers using nanoporous membranes. More specifically, the present invention relates to a method of preparing a photopolymer with enhanced optical quality by performing photopolymerization in a polymer having nano-sized pores. The invention also relates to a photopolymer prepared by the method.
